THE GENERAL ASSEMBLY,

Reminding the Russian Federation of their numeral attacks on different countries including but not limited to: 2008 Georgia crisis where the Russian Federation ensued a full land, air and maritime invasion under the guise of peace enforcement, the 2014 annexation of Crimea, which was a part of Ukrainian sovereign territory, and the 2022 full scale invasion of Ukraine, the Georgia crisis is also directly against the 1997 NATO-Russia founding act,

Pointing at the issue that NATO and Russian relationships have been at their lowest point since the end of the cold war in 1991,

Further reminding all neutral states that being neutral is the same thing as supporting the aggressor,

1. Recommends all members of state to increase their contribution to Ukrainian rescue fund by 2%;
2. Requests all members of states to adopt the economic sanctions of the European Union (EU) for the reasons of:
 - a. the Russian Federation will have no choice but to decrease funding in the Russia-Ukrainian war
 - a. economic sanctions on the Russian Federation can also cause faster progression in the fighting of climate change for reasons as stated below
 - i. the economic sanctions imposed by the EU and other countries discourages/ bans all oil trade between the Russian Federation
 - ii. less import and export from the center of Russia, which would mean less fuel used for transportation
 - b. we acknowledge that the mention of less oil can be a turn off for most if not all members of state but this this could also be good for members of state for the reasons as followed
 - i. members of state will have less influence exerted on them because they won't be dependent on Russian oil trade
 - ii. members who have other fuel sources like oil or renewable energies can better sell their fuel sources;

3. Encourages all members to refrain from trading or giving weapons to either Ukraine or Russia, reminding all states that we do not wish to help Ukraine win this war but instead try to stop the war;
4. Expressing the need for a contract signed by both heads of state, ensuring no weapons of nuclear level weapons will be allowed;
5. Requesting negotiation on a peace treaty or still fire between states which are being discussed;
6. Advices NATO cuts ties with Russia for reasons stated below:
 - a. NATO has tried to build a peaceful relationship with Russia, but Russia has constantly violated norms and agreements, our final straw was the invasion of Ukraine in 2022
 - b. the countries supporting the Russian Federation are known aggressors against the NATO (Belarus, Iran, People's Republic of Korea).
