

FORUM: General assembly, fourth committee

QUESTION OF: the rising tensions between Russia and NATO

SUBMITTED BY: Egypt

CO-SUBMITTED BY: Venezuela, Dominican Republic, The Netherlands, Holy See, Indonesia, India, Dominican Republic of the Congo, Chad, Switzerland, Mexico, Senegal

THE FOURTH GENERAL ASSEMBLY,

Notices the millions of fine young men and fathers dying in Ukraine right now as a result of a conflict between the Federation of Russia and Ukraine,

Taking note that this conflict is unnecessary, and has only actually started by fears of the Russian Federation that the NATO will attack The Russian Federation if Ukraine will join the Nato,

Recognizing the millions of people dying in Africa of starvation as a result of grain prices and sunflower oil prices have risen by 40% as a result of the lack of trade of grain and sunflower oil in The Russian Federation and Ukraine,

Taking into account the millions of Europeans, and millions of other humans, are freezing in their homes due to highly increased gas prices,

Bearing in mind the millions of Ukrainian children, dying, starving, freezing and not getting education due to this war,

Fully aware of the millions of Ukrainian immigrants having to leave everything behind, including family, longing to get back to their homeland,

1. Calls upon The Russian Federation and Ukraine to make an immediate end to this unnecessary war:
 - a. this will be done under pressure from other nations
 - b. this will be done with help from other nations;
2. Orders that The Russian Federation and Ukraine will both exist alongside each other:
 - a. Ukraine will get control over all the land which is ethnically Ukrainian, or where the majority will vote to be part of Ukraine:
 - i. this does not include any land outside of Russian or Ukrainian territory
 - ii. this exact same will count for The Russian Federation
 - iii. voting procedures will only be carried out by UN Neutral PeaceKeepers (NPK's);

3. Emphasizes that Russia nor Ukraine will ever be allowed to attack one another;
4. States that gas, mineral oil, sunflower oil, wheat or any other product produced in The Russian Federation or Ukraine will return to the prices before the war started:
 - a. trade on the black sea is completely open again, and may not be intervened by any country:
 - i. this does not count if the subject of trade is criminal;
5. Further calls upon that neither Russia or Ukraine should get any sanctions laid upon them as punishment of the Russia-Ukraine war, as history has proven that that is the wrong move;
6. Further orders that russian army generals accused of war crimes will be taken to court and, if necessary, will be convicted:
 - a. this includes leaders on both sides of the conflict;
7. Allows both russia and ukraine to join NATO, EU or any other treaty the member state wishes to join;
8. Proclaims that The Russian Federation and Ukraine are obliged to help one another with any damage caused to one another as a result of the war;
9. Further states that The Russian Federation needs to restore its democracy:
 - a. if this is unsuccessful, The Russian Federation is obliged to accept help from the UN, even if it doesn't accept that:
 - i. this rule can intervene with article 1, 2, 5 and 8 of the second resolution passed yesterday, or any other resolution passed yesterday;
